Join AJMPR Team

Asian Journal of Medical and Pharmaceutical Researches (ISSN: 2322-4789) as international journal is always striving to add diversity to our editorial board and operations staff. Applicants who have previous experience relevant to the position they are applying for may be considered for more senior positions (Section Editor, SE) within AJMPR. All other members must begin as Deputy Section Editors (DSE) before progressing on to more senior roles. Editor and editorial board members do not receive any remuneration. These positions are voluntary.

If you are currently an undergraduate, M.Sc. or Ph.D. student at university and interested in working for AJMPR, please fill out the application form below. Once your filled application form is submitted, the board will review your credentials and notify you within a week of an opportunity to membership in editorial board.

If you are Ph.D., assistant, associate editors, distinguished professor, scholars or publisher of a reputed university, please rank the mentioned positions in order of your preference. Please send us a copy of your resume (CV) or your ORCID ID or briefly discuss any leadership positions and other experiences you have had that are relevant to applied Medical and Pharmaceutical Researches or publications. This includes courses you have taken, editing, publishing, web design, layout design, and event planning.

If you would like to represent the AJMPR at your university, join our volunteer staff today! AJMPR representatives assist students at their university to submit their work to the AJMPR.
